

## Financial Controller – Part Time Permanent

Optibrium provides software to guide decisions involving complex, uncertain data in an intuitive way. Our primary product, StarDrop, is focused on the pharmaceutical industry, helping scientists to guide decisions in the design and selection of potential new drugs.

With a track record of strong growth, we are looking to recruit a part-time Financial Controller (2-3 days a week), responsible for overseeing the company's finances. The successful applicant will work closely with the company's senior management team to execute our exciting plans for future development and growth.

### Main Responsibilities

- Review of monthly management accounts, prepared by external accountants
- Preparation and submission of VAT returns
- Update of quarterly projections
- Preparation of annual budget
- Review and approval of invoices and royalty reports

### Experience and Skills

The ideal candidate will have the following experience and skills

- Successful track record of financial management
- ACCA, ACA or CIMA qualified preferred
- Experience working in a small company
- Ability to work independently and as part of a team

### Beneficial

- Experience of working within the software and/or life-sciences sectors

### Personal

- You are innovative, self-motivated, dependable and enjoy problem solving
- You possess effective communication skills and a 'can do' attitude

If you're interested in joining a growing, entrepreneurial team working in an exciting field, please apply with a CV and covering letter to [vacancies@optibrium.com](mailto:vacancies@optibrium.com) (unsolicited applications from agencies will not be accepted).

### Background

Optibrium provides elegant software solutions for small molecule design, optimisation and data analysis. The company's lead product, StarDrop, is a comprehensive suite of integrated software with a highly visual and user-friendly interface. StarDrop enables a seamless flow from the latest data through to predictive modelling and decision-making regarding the next round of synthesis and research, improving the speed, efficiency, and productivity of the discovery process.

Founded in 2009, Optibrium is headquartered in Cambridge, UK with offices in Boston, US. Optibrium continues to develop new products and research novel technologies to improve the efficiency and productivity of the drug discovery process. Optibrium works closely with its broad range of customers and collaborators that include leading global pharma, agrochemical and flavouring companies, biotech and academic groups.
