## Optibrium Launches New Community Website

*Features enhanced content including tutorials with video walkthroughs and exclusive add-on scripts*

**CAMBRIDGE, UK, 22nd October, 2013** – Optibrium, a developer of software for drug discovery, has launched a new, redesigned community website ([www.optibrium.com/community/](http://www.optibrium.com/community/)). Aimed at StarDrop™ and StarVue™ users as well as researchers looking to improve the efficiency and productivity of the drug discovery process, the new site features enhanced content and gives direct access to the Optibrium support team and other users. Regular updates will include new tutorials with video walkthroughs, publications and presentations and free downloads of extensions for StarDrop, all of which have been developed by users, in house or in partnership with expert 3<sup>rd</sup> parties. The site also offers discussion forums and FAQs to ensure researchers are supported by Optibrium to achieve optimal results from their drug discovery software.

Optibrium combines a scientific heritage in drug discovery cheminformatics with a world-class software platform, StarDrop, that brings confidence to the selection and design of high quality candidate drugs. The company has a global customer base, ranging from top-ten pharmaceutical companies to biotechs and academic groups.

Optibrium aims to help drug discovery projects to optimise strategies, reduce wasted molecules and experiments, shorten timelines and improve the overall quality of candidate compounds.

### **About Optibrium Ltd.**

Optibrium provides drug discovery software solutions that bring confidence to the selection and design of high quality candidate drugs. The Company's flagship platform, StarDrop, creates an intuitive, highly visual and flexible environment to facilitate and speed up lead identification and optimisation, quickly targeting effective drug candidates with a high probability of success downstream.

Founded in 2009, Optibrium continues to develop StarDrop and research novel technologies to improve the efficiency and productivity of the drug discovery process. Optibrium works closely with its broad range of customers and collaborators, that include leading global pharma companies, biotech and academic groups.

Visit the online community at <http://www.optibrium.com/community/> for further discussions on improving the productivity of drug discovery.
